

Rocky Mountain College

Rocky Mountain College Health Insurance

RMC requires that all students have basic health insurance coverage. Anyone who does not have insurance under a Canadian provincial health care plan must buy the insurance offered by Student Guard Health Insurance. The student pays RMC the required fee and RMC enrolls the student in the insurance plan and remits the premium to Student Guard.

Student Guard Health Insurance offers comprehensive health insurance coverage. Benefits include: physician's fees for medically required services, hospitalization, X-rays and diagnostic tests, prescription medication, ambulance service, accidental dental care, and repatriation of deceased. Pre-existing conditions are covered unless they have developed only in the three months previous to the start of the insured period.

Complete details regarding coverage can be found on their webpage at www.studentguard.com/policyinformation/standardpolicy.html. This information is available in English, Chinese, Chinese Traditional, French, German, Italian, Japanese, Korean, Portuguese, and Spanish.
